BEAUTIFUL

"Kirmis" Is To Be—Miss Hamant Directing Large Class of Pretty Girls.

Miss Sophia M. Hamant, of Cincinnati, is now industriously and artistically conducting and directing the drilling and practice for the beautiful spectacle of "Living Reproductions of Famous Masterpieces and Kirmis," at the Washington Opera House Friday evening, April 30.

The rehearsals are being held at the Guild Room of the Episcopal church. The real work began Monday, each group being assigned an hour. The dances were given in costume, with a special arrangement of lights, scenery and music.

The first part of the program—"Living Reproductions of Famous Masterpieces," will include the familiar figures of Mrs. Siddons, Madame Recamier, Age of Innocence, Princes in the Tower, Madame Le Brun and Daughter, Girl with the Muff, Marie Antoinette, Angelus, Carmencita, Vestal Virgin and Queen Louise. The pictures will be posed in a large gold frame with background of dark green folds. The pictures will be followed by the groups of statuary, which will include a very novel medallion.

The cast calls for 168 misses and boys and already about 250 have expressed a willingness—in fact are eager to take part. It no doubt will be a difficult task for Miss Hamant to make a selection for her requirements for such an excellent array of talent that is at her disposal.

This promises to be the biggest and best entertainment ever seen in Maysville.

Gentry & Thompson Co. will be at Parker & Riley's stable Thursday to buy a carload of mules. Bring them in.

FINE PROSPECTS

Gas Will Be Reached In a Few Days At Brooksville Well, Says Expert.

Many people of this vicinity will be glad to know that in a few days gas in abundance will be found in the Ohio Valley Gas & Oil Company's big well at Brooksville, Bracken county.

Mr. A. C. Yost, of Huntington, W. Va., gas expert of the Columbia Gas & Electric Company, of Cincinnati, visited the well at Brooksville Wednesday and declared the prospect as fine as he ever saw. With about 200 more feet drilled, he said, they should find gas in abundance. As the well is now 1,350 feet deep, the promoters will drill the other 200 feet.

It seems sure that they will get gas, as for some time they have been striking oil in quantities and some little gas. If found, it will mean riches for all concerned.

The officers of the company are as follows: Mr. John Brown, of Bracken county, president; Mr. Edward Perrie, of Fleming county, vice president; Hon. A. D. Cole, of this city, treasurer, and Mr. Wadsworth Cole, also of this city, secretary.

Many Maysville and Mason county people are interested in this company and will be benefited by this event.

MISS MARTHA TRAPP PIANIST FOR KIRMISS.

Miss Martha Trapp has been engaged as accompanist for the big Kirmis production to be put on at Washington Opera House the evening of Friday, April 30. Playing the music for the dance rehearsals will require seven hours of hard work daily from now until the "great night." Miss Hamant, the directress of the production, gave Miss Trapp a trial, finds her very capable and is convinced that she will satisfy every demand, being a fine musician.

BUSY MART.

Maysville is fast becoming a terminal for the surrounding counties. Yesterday twelve auto busses were lined up on Sutton street at one time, and each of them was filled to capacity with prospective purchasers of Maysville goods. This should be noticed by the merchants and should be carefully fostered. A good stock of merchandise is a magnet which draws crowds, so, Mr. Merchant, fill up your store and the people will do the rest.

GREAT WORK

Can Be Done In Kentucky—Let Maysville and Mason County Do Their Share—Be At The Council Chamber At 7:30 P. M.

Wednesday night, on account of inclement weather, the Mason County Game and Fish Club failed to hold its meeting, but decided to hold it tonight, when Hon. J. Quincey Ward, State Game Warden, will deliver an address upon the work of the preservation of game in Kentucky.

Do you know that in one year 150,000 quail are shipped out of Kentucky? Should this occur? No. And it will not, with good live game clubs.

Do you know that the value of fish shipped out of Kentucky in one year is \$850,000? Save your fish, if only for economic reasons.

Do you know there are 12,365 miles of what the United States government fish experts declare the best streams in the United States in Kentucky? Then why can not Kentucky have the greatest fish streams in the United States? She could if you join a game club.

Do you know that 1,797 miles of these streams are navigable, affording a safe home for all kinds of fish?

Do you know that you should join the game club tonight. THERE ARE NO DUES.

Mr. Ward says that a good, live game club will help to build up Mason county and put her on the map. With a good game club, the United States Bureau of Fish Hatcheries would be only too glad to help stock up Mason county with game.

In Kentucky most all counties have game clubs and the Kentucky State Hatchery has a special car to distribute fish to the different counties.

Maysville will be benefited by the club, for Mr. Ward will place an order for Maysville fisherman to furnish him with 50,000 blue channel catfish, to be used in stocking up the streams in central Kentucky.

So, let's all join the game club and boost Kentucky, Maysville and Mason county.

MASON COUNTY

Well Represented At Kentucky Educational Association.

Mason county will be well represented at the Kentucky Educational Association meeting, to be held at Louisville from Thursday to Saturday of this week, as every teacher is enrolled in the association and his or her dues are paid up. GETTING UP STEAM ON SUNDAY!

A prominent Iowa legislator has turned from his law-making long enough to publish a "Go-To-Church" tract. The title is "Getting Up Steam," or "Sunday Morning Haps and Mishaps." In this tract he tells how Rockport, Mo., with a population of a little over 1,000 had 800 in attendance on their special "Go-To-Church" day. Of course, there was much advertisement given to it, but he declares that the very best boosters were the faithful business men. So great was the enthusiasm and so splendid was their patriotism for the uplifting forces of their town, that almost their entire population responded to the call of the pulpit on that day.

For the first time in our history a Governor has appreciated the value of the church and Sunday school enough to request that every person in the commonwealth attend some church and Sunday school on next Sunday, April 25. This Governor was our own McCreary, and the first state was our own Kentucky; now can't we count on our loyal business men to boost this movement so that we can have over 3,000 in our Sunday school and church services on Sunday morning next. Come on folks, and let's put Maysville on the map by "Getting Up Some Sunday Steam," for those institutions, which are the preserving salt of our civilization. Go to the church of your choice. BUT GO!

AMERICAN VS. CHEAP LABOR.

The reason why prices are so close, as between foreign goods and domestic, is because the dealers absorb the margin between cost and price as their profit; and the enormous differences between wages here and the average wage abroad, taking in the whole circuit of the earth, from England where wages are about one-half of ours, and India and China, as well as Japan, where wages are from one-tenth or even, in some directions, one twentieth to one-twenty-fifth as high as ours, is the magnet which, under Wilson tariffs, constantly draws capital that otherwise would invest here towards these fields of lower productive cost. If there were no foreign competition at all, that is, if at present foreign industries had not developed to a point where they would send products to this country, nevertheless, a Wilson tariff would be a very dangerous thing, as our own wide-awake producers very soon would find out the populations outside where industrial skill was perhaps even latent and they very soon, unless kept in here by a tariff penalty for migrating, would build their factories in the low-cost areas of foreign countries.

It may be a long, log way to Tipperary, but it's not so far to 1916.

Educational Limitations.

A small boy asked his father the meaning of equinox, and received this answer: "What in the world do you go to school for? Don't you study mythology? An equinox is a mythical animal, half horse, half ox. The name is derived from the Latin 'equine,' horse and 'ox.' Dear me, they teach you absolutely nothing that is useful nowadays!"—Athenian Globe.

GO-TO-SUNDAY-SCHOOL-DAY.

Next Sunday is "Everybody Go To Sunday School" day. What a grand thing it would be if everybody should go to Sunday school all the time. Next Sunday will afford a golden opportunity to visit some Sunday school and see the marvelous development in Sunday school work since you were a child in Sunday school.

The modern Sunday school is as much in advance of the school of twenty years ago as the modern printing press is above the old hand-press. A warm welcome awaits you at every Sunday school in Maysville and Mason county.

MAY PROVE FATAL

When Will Maysville People Learn the Importance of It?

Backache is only a simple thing at first; But if you find 'tis from the kidneys; That serious kidney troubles may follow;

That dropsy or Bright's disease may be the fatal end, You will be glad to know the following experience.

'Tis the statement of a Maysville citizen, Mrs. Della Lunsford, 328 E. Front St., Maysville, Ky., says: "I attributed kidney trouble to a strain. I had sharp, shooting pains through my kidneys and a dragging down feeling in my hips. I had dull headaches and dizzy spells and often if I had not caught hold of something for support, I would have fallen. I was in that condition for several years, up one week and in bed the next. I finally began to notice symptoms of dropsy. My feet began to swell and my hands were at times the same way. Doan's Kidney Pills, procured at J. J. Wood & Son's Drug Store, permanently cured me."

BUSINESS MEN AROUSED.

It is no wonder that business men are aroused. They are tired of theory that is fatal and inexperienced that keeps their interests in constant jeopardy. Business men, both big and little, are growing restive. They are tired of the confusion and the multiplicity of laws. They resent the appointment of second-grade men to commissions which have the power of regulating trade and making standards for business. They are opposed to the narrowest partisanship which refuses to give the great Republican party a single member of such an important body as the Federal Trade Commission. They do not intend to have another President who knows nothing of business and is surrounded by a cabinet equally deficient in that line.

They can no longer be patient with a President who, filled with academic ideas of the college cloister, shuts the door of the White House to men who have lived and solved the problems of business in the United States. They are against a continuance of an administration which cries "Lobbyist!" at any business man who appears in Washington to protest against threatened action which would injure his own industry. They object to the brand of "Conspirator" being placed upon them when they come to present the facts in regard to proposed legislation.—Philadelphia Press.

Beautiful Home For Sale

Mr. and Mrs. Robert Dawson have placed with us for sale their new home on East Second street, in the Sixth Ward. This home is located on a large lot, 72x150 feet, and running back to Williams street. We will not make any attempt to describe this home in detail. It is built of pressed brick, with hardwood floors, basement under the entire house, slate roofing, hot water, furnace, gas all over the house, and in fact, is modern and complete throughout, and must be seen to be fully appreciated. This beautiful home has been admired by all who have seen it, and every Maysvillian is justly proud of such enterprising citizens, as the builders of this property. Mr. Dawson's health is such that his physician has advised him to spend his winters in the South, and for that reason he offers his home for sale at less than cost, \$8,500.

THE M. H. S.

(By Margaret A. Smith.)

[The following poem is from the pen of Miss Margaret A. Smith, daughter of Mr. and Mrs. W. R. Smith, and is worthy of a place in our columns.—Editor.]

Of all the schools we think the best,
Is dear old Maysville's M. H. S.;
And though sometimes we've awful rules,
(But what's a school without some rules?)

Yet Mr. Mance, who runs the lab,
On all demerits keeps a tab.
Miss Luten loves to help him, too,
And fills her pages through and through.
And Mr. Dale, whom we dare not fool,
Is looked up to by all the school.
Miss Threlkeld loves the English gram,
And finds grave faults with all four clans;

For though she knows just how to talk,
On some big words we always balk.
Miss Sutherland, our true-blue friend,
Is e'er our aid through thick and thin;
And Mr. Bell, the great athlete,
On out-door sports is sure complete.
Miss Habermann is sure to teach
The every word in German speech;
For all the knowledge she does lack,
Looks like a pin in a large hay-stack.
And all the pastries through the best,
Are surely found in M. H. S.,
Because Miss Dickson teaches so,
The mighty art you soon will know.
Miss Hanselmann we have here too,
To teach us music through and through.
And now—one thing we hate to say,
Is that from us she's going away;
But e'er she leaves our happy throng,
We hope she'll sing us one last song.
While all the school sends out their cheer,

To greet our teacher year by year.
And next the superintendent comes,
Not least, but last, as the saying runs;
For at the head of this large school,
The superintendent helps to rule.
Now, with such a crew as this,
I think our school does spell "success;"
So parents, teachers, pupils, all,
List to old Education's call;
And we shall use "Success" our crest,
Through all the years of M. H. S.

THE DAY OF RECKONING HAS COME.

The legislative history of two years of Democratic rule was completed March 4. Those two years have been marked by one of the most active periods of law making this country has ever seen. With a House ready and able to execute his decrees down to the last word and with a working majority in the Senate, President Wilson took the oath of office March 4, 1913. With prophetic eagerness he summoned Congress in extra session a month later. With the exception of six weeks of respite last fall the party machinery has been in operation ever since, grinding out experimental laws that affect every phase of our social and commercial life.

What does a study of that record show?
It discloses the fact that during that time the Democratic Congress has enacted and the Democratic President has signed more crude, imperfect and hasty laws than ever were written during the same length of time by any American Congress. It furnishes an indictment of haste and lack of legislative intelligence that is bound to be humiliating to the party responsible.

Those who have closely observed the methods of legislation used by the Democratic majority are not surprised at the faulty results. The present administration has been admittedly notable, even notorious, for its steam roller short cuts in enacting laws. Every important bill passed has been put through with small consideration beyond that of party expedience. As soon as the President proposed a law, then the caucus approved it, the majority rushed it through committees and back to the President for his signature, all with as little debate as possible, and under from-elad special rules that permitted no chance for intelligent consideration or amendment.

It is conceivable that a few bills might be put through a legislative body in this way and emerge in perfect form. But to use such methods indiscriminately, as the Democratic Congress has done, is practically to insure the enactment of laws which future Congresses must either repeal or spend many weeks to amend. This is the task which Democratic haste and lustful use of a powerful majority has created for future Congresses.

MOTHER TELLS HOW VINOL Made Her Delicate Boy Strong

New York City.—"My little boy was in a very weak, delicate condition as a result of gastritis and the measles and there seemed no hope of saving his life. The doctor prescribed cod liver oil but he could not take it. I decided to try Vinol—and with splendid results. It seemed to agree with him so that now he is a strong healthy boy."—Mrs. Thomas Fitzgerald, 1090 Park Ave., N. Y. City.

SUNDAY TO HOLD MEETING IN CHICAGO.

Chicago.—Forces which have organized for the fight to make Chicago dry in 1916 were jubilant when it was formally announced that Billy Sunday would come to Chicago to conduct an evangelistic campaign. Three hundred and fifty ministers signed the request for the evangelist to help them and the allied anti-saloon forces to drive Chicago's 7,152 saloons from the city. Sunday said he wants to start "driving the devil from Chicago next January."

GOLD DUST

—it actually works at hundreds of tasks daily

"Let the Gold Dust Twins do your work" is much more than a popular phrase. It is based on truth, an actuality, for Gold Dust really works.

The millions of women who use it for dishwashing and scrubbing know this. But Gold Dust should be used for cleaning and brightening everything. It is the only washing and cleaning powder needed in any home.

The small quantity required is quickly taken up by hot or cold, hard or soft water—forming a perfect cleaning solution. The valuable antiseptic cleansing agent it contains helps to make things sanitariously clean, as well as bright and new-looking.

BASEBALL CLUB

Prospects Good To Have a Strong Lo-
cal Team Here This Year.

The Maysville Baseball Club met
Wednesday night in Pearl Blythe's
barber shop, and discussed future plans
for the coming season. The subscrip-
tion committee reported they had so-
lited almost every merchant and fan
in town, but were still short on the
necessary amount a few dollars.

The boys will be out again today and
try to get the necessary amount to buy
uniforms and paraphernalia. It was
decided to sell the booth privileges to
the highest bidder.

The boys will play a match game on
next Sunday at 2:30 in the ball park,
at which time the final selection of
the regular club will be made.

The regular season will open on May
9, the first game being with some fast
semi-pro team from Cincinnati.

Every indication points to Maysville
having a good strong local ball club
this year, as the boys are enthusiastic
and want to make good.

We are for them.
